

Nature Photography Workshop,  
with Gina Bilander. Morning  
sessions, with nearby field trips.  
July 17 - July 21. Free to World  
Fellowship guests.

All ages, levels of skill and equipment are  
welcome as we learn how to translate what  
we see and respond to into photographs: the  
art and science of light.

Daily handout given on the history of photography and nature essays as well  
as technique. One class will discuss whether, in this age of 24 hour social  
media, a photograph can still bear witness to all the issues of our time.
